

## EMF Protection Blanket – Dark Grey

This is a thin, dark grey shielding blanket, that is made of Steel-Gray, that will protect you against high and low frequency radiation. Use it to get quick and easy protection on the couch, in the bed, on holiday, on business trips or while playing console games.

Steel-Gray is tightly woven and contains cotton/polyester/stainless-steel fabric. The stainless-steel threads aren't so soft on the skin (feels similar to a wool sweater). So make sure to wear your blanket on top of clothing for optimal comfort.

### Technical data:

- Size: 200 cm x 140 cm
- Attenuation: 35 dB at 1 Ghz
- Color: Grey
- Raw materials: 40% cotton, 30% polyester, 30% stainless steel
- Surface conductivity: 100-800 ohms / inch (2.54 cm)

### Screening attenuation:

All stated attenuation values apply at 1 Ghz. The measurement setups follow the standards ASTM D4935-10, IEEE Std 299-2006, IEEE Std 1128-1998, ASTM A698/A698M-07. Please visit our website, to find the test report on the product page of the blanket.

### Fabric care:

Washing at gentle cycle 30°C | Ironing without steam at degree 1 | No tumble dryers | No bleaching | No chemical dry-cleaning | For allergy sufferers: New fabric might smell, so please wash before first usage!
